SMA34070 Limited Edition**

Let the adventure begin

Flying to Dubai tomorrow, on to Bangkok and back home to London? During all your world-travels, never lose track of time with the new SMA34070 Limited Edition timepiece. This stylish and distinctly modern looking timekeeper combines sophisticated automatic movement with an expedient indication of a second time zone. The decoratively inscribed locations on the case-back guide the world-time function, as each city stands for a time zone. The black dial and bezel speak a purely modern language, whilst the movement with its rotor decorated in 'Côte de Genève' tells the tale of traditional Swiss Made watchmaking. Each of the 300 pieces is made of a tough stainless steel case and is furnished with scratchproof sapphire glass.
