Swiss Military by Chrono

Be Searchable – A collaboration between Swiss Military by Chrono and Recco

Swiss Military by Chrono is always on the lookout for innovative technologies that support the active lifestyle of Swiss Military watch wearers. In collaboration with RECCO, we now offer our customers the possibility to equip their watches with a watch strap enhanced with the Recco® Advanced Rescue Technology. The Recco reflector which is built into this strap enables rescue professionals to locate the wearer in the event of avalanche accidents or when lost outdoors. The Recco reflectors require no power and no activation to function. In order to withstand the outdoors, the Recco strap is made of durable Schoeller® outdoor kevlar textile and is equipped with a Velcro® closure system that allows for a perfect fit on the wrist.

Specifications:

- Available in 2 sizes: 22mm and 20mm (width)
- Integrated RECCO reflector
- Velcro® closure system
- Durable Schoeller® outdoor textile
- Easy click on/off strap fitting system

About Recco Advanced Rescue Technology:

Recco Technology makes you searchable by rescue professionals worldwide in the event of an avalanche burial or if lost in the outdoor. The Recco reflector in this product enables rescue professionals to locate you with Recco detectors. www.recco.com

Disclaimer: RECCO technology does not prevent avalanches or guarantee the survival or localization of a victim or lost person. Knowledge and common sense are the best ways to avoid accidents. Always respect safety rules and regulations.
